1. EXECUTIVE SUMMARY

Company Overview

Orion Industries Pvt. Ltd. is a Pune-based precision manufacturing and industrial solutions company founded in 1998 by Mr. Harish Bhalerao. The company manufactures high-precision machined components, hydraulic assemblies, sheet metal fabrications, and industrial automation sub-systems for OEMs in the automotive, aerospace, heavy engineering, oil & gas, and defence sectors. With 2,800+ employees across 5 plants and a dedicated R&D; center, Orion achieved revenue of Rs.540 Cr in FY2025, a 19% jump over the previous year.

This Market Strategy & Business Development Report provides an in-depth analysis of Orion's revenue performance, market positioning, competitive landscape, product portfolio health, customer segmentation, geographic expansion, and strategic initiatives for FY2026–FY2027. The report is intended for the Board of Directors, Senior Management Committee, and Strategic Planning function.

2. REVENUE ANALYSIS BY SEGMENT, GEOGRAPHY & CHANNEL

Revenue by Business Segment

Orion's revenue is organized across four business segments. The Precision Components segment continues to be the largest contributor, while the Industrial Automation segment recorded the highest growth rate of 42% YoY, reflecting strong OEM demand for automation sub-systems. The newly formed Defence & Aerospace vertical (spun off from Precision Components in FY2024) contributed Rs.64 Cr in its first full fiscal year.

Segment	FY2023 (Cr)	FY2024 (Cr)	FY2025 (Cr)	Growth	Gross Margin	Key Clients

Revenue by Geography

Domestic revenues grew 12.4% to Rs.378 Cr, while export revenues surged 37.3% to Rs.162 Cr. Europe (primarily Germany and Czech Republic) overtook the Middle East to become Orion's second-largest export market. The company received its first order from Japan (Toyota Boshoku) in Q3 FY2025, signaling entry into the Japanese automotive supply chain.

3. CUSTOMER ANALYSIS & KEY ACCOUNT MANAGEMENT

Customer Segmentation

Orion serves 1,220 active clients across four tiers. Tier 1 (Strategic Accounts) comprises 18 clients contributing 52% of revenue with dedicated Key Account Managers and quarterly executive reviews. Customer concentration risk is managed — the top 5 clients account for 32% of revenue, reduced from 38% in FY2023 through active portfolio diversification.

4. COMPETITIVE LANDSCAPE & MARKET POSITIONING

Industry Overview

The Indian precision manufacturing and industrial components market is estimated at Rs.8,200 Cr in FY2025, growing at 14.2% CAGR. The market is moderately consolidated, with the top 8 players holding ~55% share. Key growth drivers include the PLI scheme for advanced manufacturing, China+1 sourcing shifts by global OEMs, increased defence indigenisation under Make in India, and rising automation adoption in Tier-2 automotive suppliers.

SWOT Analysis — Orion Industries

STRENGTHS	WEAKNESSES
• ISO/TS 16949 & AS9100D dual-certified • 98% on-time delivery to Tier-1 OEMs • 5-year relationships with top 10 clients • 42-patent portfolio in precision machining • In-house tooling & fixtures capability • EBITDA margin above sector average	• Export revenue still 30% (target: 45%) • Limited brand recognition outside India • High dependence on automotive (64%) • Single ERP system across 5 plants (risk) • Skilled talent shortage in automation
OPPORTUNITIES	THREATS
• China+1 shift creating global supply gaps • Defence indigenisation (DDP-2025 orders) • EV component demand (new SKU line) • Europe supplier diversity mandates • PLI incentive disbursements FY2026	• Rupee appreciation eroding export margins • New low-cost entrants from MP/Gujarat • Raw material (steel/aluminium) price surge • Client consolidation reducing supplier base • Geopolitical risk in ME export markets

5. PRODUCT PORTFOLIO & INNOVATION ROADMAP

Product Line Overview

Orion's 183-SKU portfolio spans five product families. The company follows a Product Lifecycle Management (PLM) framework with annual portfolio reviews. In FY2025, 22 new SKUs were launched, 14 mature SKUs were sunset, and 8 existing products were re-engineered for EV compatibility. The New Product Introduction (NPI) pipeline for FY2026 includes 31 planned SKUs, of which 14 are EV-specific and 9 are defence-grade.

Innovation & R&D; Investments

Orion's R&D; Centre (established 2019) at its Chakan facility employs 84 engineers and designers. The R&D; budget for FY2025 was Rs.22 Cr (4.1% of revenue), up from Rs.16 Cr in FY2024. Key focus areas include EV powertrain component development, Industry 4.0 integration for smart manufacturing, and light-weighting solutions using aluminium die-casting.

6. SALES PERFORMANCE & CHANNEL STRATEGY

Sales Team Performance FY2025

The Sales & Business Development team of 124 professionals (including 18 Key Account Managers, 42 field sales executives, 24 application engineers, and 40 inside sales/support staff) achieved revenue of Rs.540 Cr against a target of Rs.510 Cr — a 105.9% achievement. The average deal cycle reduced from 86 days to 72 days. New business won (logos) increased from 148 to 210.

7. STRATEGIC INITIATIVES FY2026–FY2027

Growth Strategy Overview

Orion's Board approved a two-year strategic plan targeting revenue of Rs.800 Cr by FY2027, driven by four strategic pillars: (1) Export Market Deepening, (2) EV & Emerging Segment Entry, (3) Operational Excellence & Industry 4.0, and (4) Inorganic Growth through acquisitions. A capital expenditure plan of Rs.180 Cr over FY2026–FY2027 has been sanctioned.

Key Risks & Mitigations

- Raw Material Risk: 60% of steel requirements hedged via 12-month forward contracts with JSW & SAIL
- Client Concentration: Top-5 share targeted to reduce to 28% by FY2027 via new logo additions
- FX Risk: Natural hedge via import offsets; remaining exposure hedged via USD/EUR forward contracts
- Talent Risk: Engineering talent pipeline via MoUs with 8 engineering colleges in Pune & Nashik
- Execution Risk (Plant 6): Turnkey contractor selected; weekly PMO review with MD and CFO

"Orion is no longer just a supplier — we are a strategic partner in our customers' innovation journey. Our goal is to be the first call they make when they need a manufacturing partner who can match their speed, quality, and ambition."
